#125PT
Pull-out Tray

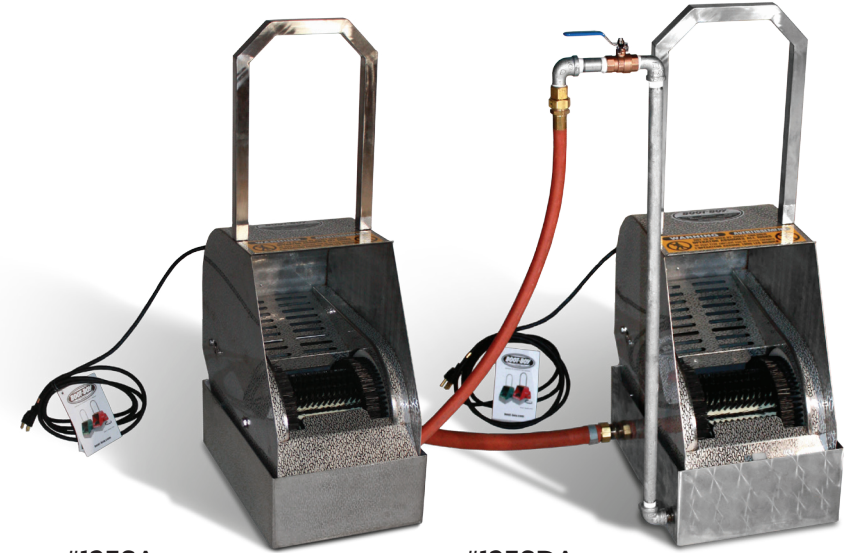

#125S
Stainless Steel Waterpan

#125SD
Stainless Steel Waterpan
w/Flow Drain

*Pull-out Tray is for dry-use only.

*Flow Drains allow for clean water in and dirty water out. Must have water and drain access.

Stainless Steel Models

#125SA
Stainless Steel Waterpan

#125SDA
Stainless Steel w/Flow Drain

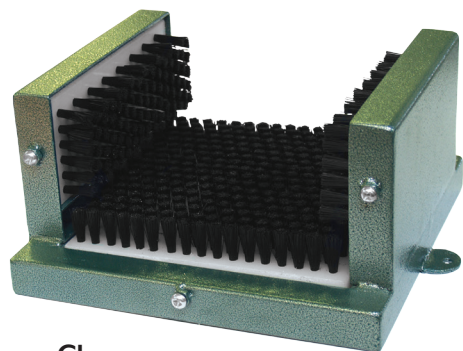

#125ULT
Stainless Steel w/Sensor &
Washdown Motor

#125ULT-D
Stainless Steel w/Flow Drain,
Sensor & Washdown Motor

* Washdown Motors can be power-washed.

* Sensors sense movement, which activates the Boot-Boy.

The #125 Standard Model is the most popular version of the Boot-Boy Industrial Footwear Cleaner. This unit features a regular steel frame and waterpan, which can be used wet or dry. Further, all the waterpans in the Boot-Boy product line-up can be operated with or without water. For dry-use applications exclusively, look to the #125PT, which features a Pull-out Tray; the easiest to clean option. Other models are available that feature Stainless Steel, Flow Drains, Sensors and Washdown Motors.

**#126M
Manual Footwear Cleaner**

- *Heavy duty.
- *Replacement brushes available.
- *Easy to mount.

**#126
Refill Brush**

- *Fits all Industrial models w/ long lasting nylon bristles.
